Freckle + Lollie

Supplies & Tools

- 2 contrasting pieces of fabric from Autumn Glory Collection
- Coordinating thread
- Basic Sewing Materials (Scissors, Ruler, sewing needles, pins)
- Iron and Ironing Board
- VelCro - iron on or sew in (Optional Snaps)

Directions

- 1.** Print and cut out banana bib template at end of directions. There are two sized to chose from. Smaller bandana fits 11.5 neck circumference and larger fits 13" circumference.
- 2.** Using the pattern, cut one pattern piece per fabric.
- 3.** With right sides together, stitch around the bandana use a 3/8" seam allowance. Leave a 3" opening at one of the two straight edges of the bib, this is marked on the pattern.

Trim off some of the seam allowance to make turning easier and not as bulky. We suggest leaving more seam allowance by the opening to allow the top stitch to close the opening completely.
- 4.** Turn bandana right side out. Fold the edged of the opening inside and press. Top stitch all around the bib 1/8" away from the edge making sure the opening is fully closed.
- 5.** Iron on or sew in your Velcro, following directions on packaging, to the ends of the bib and your done!

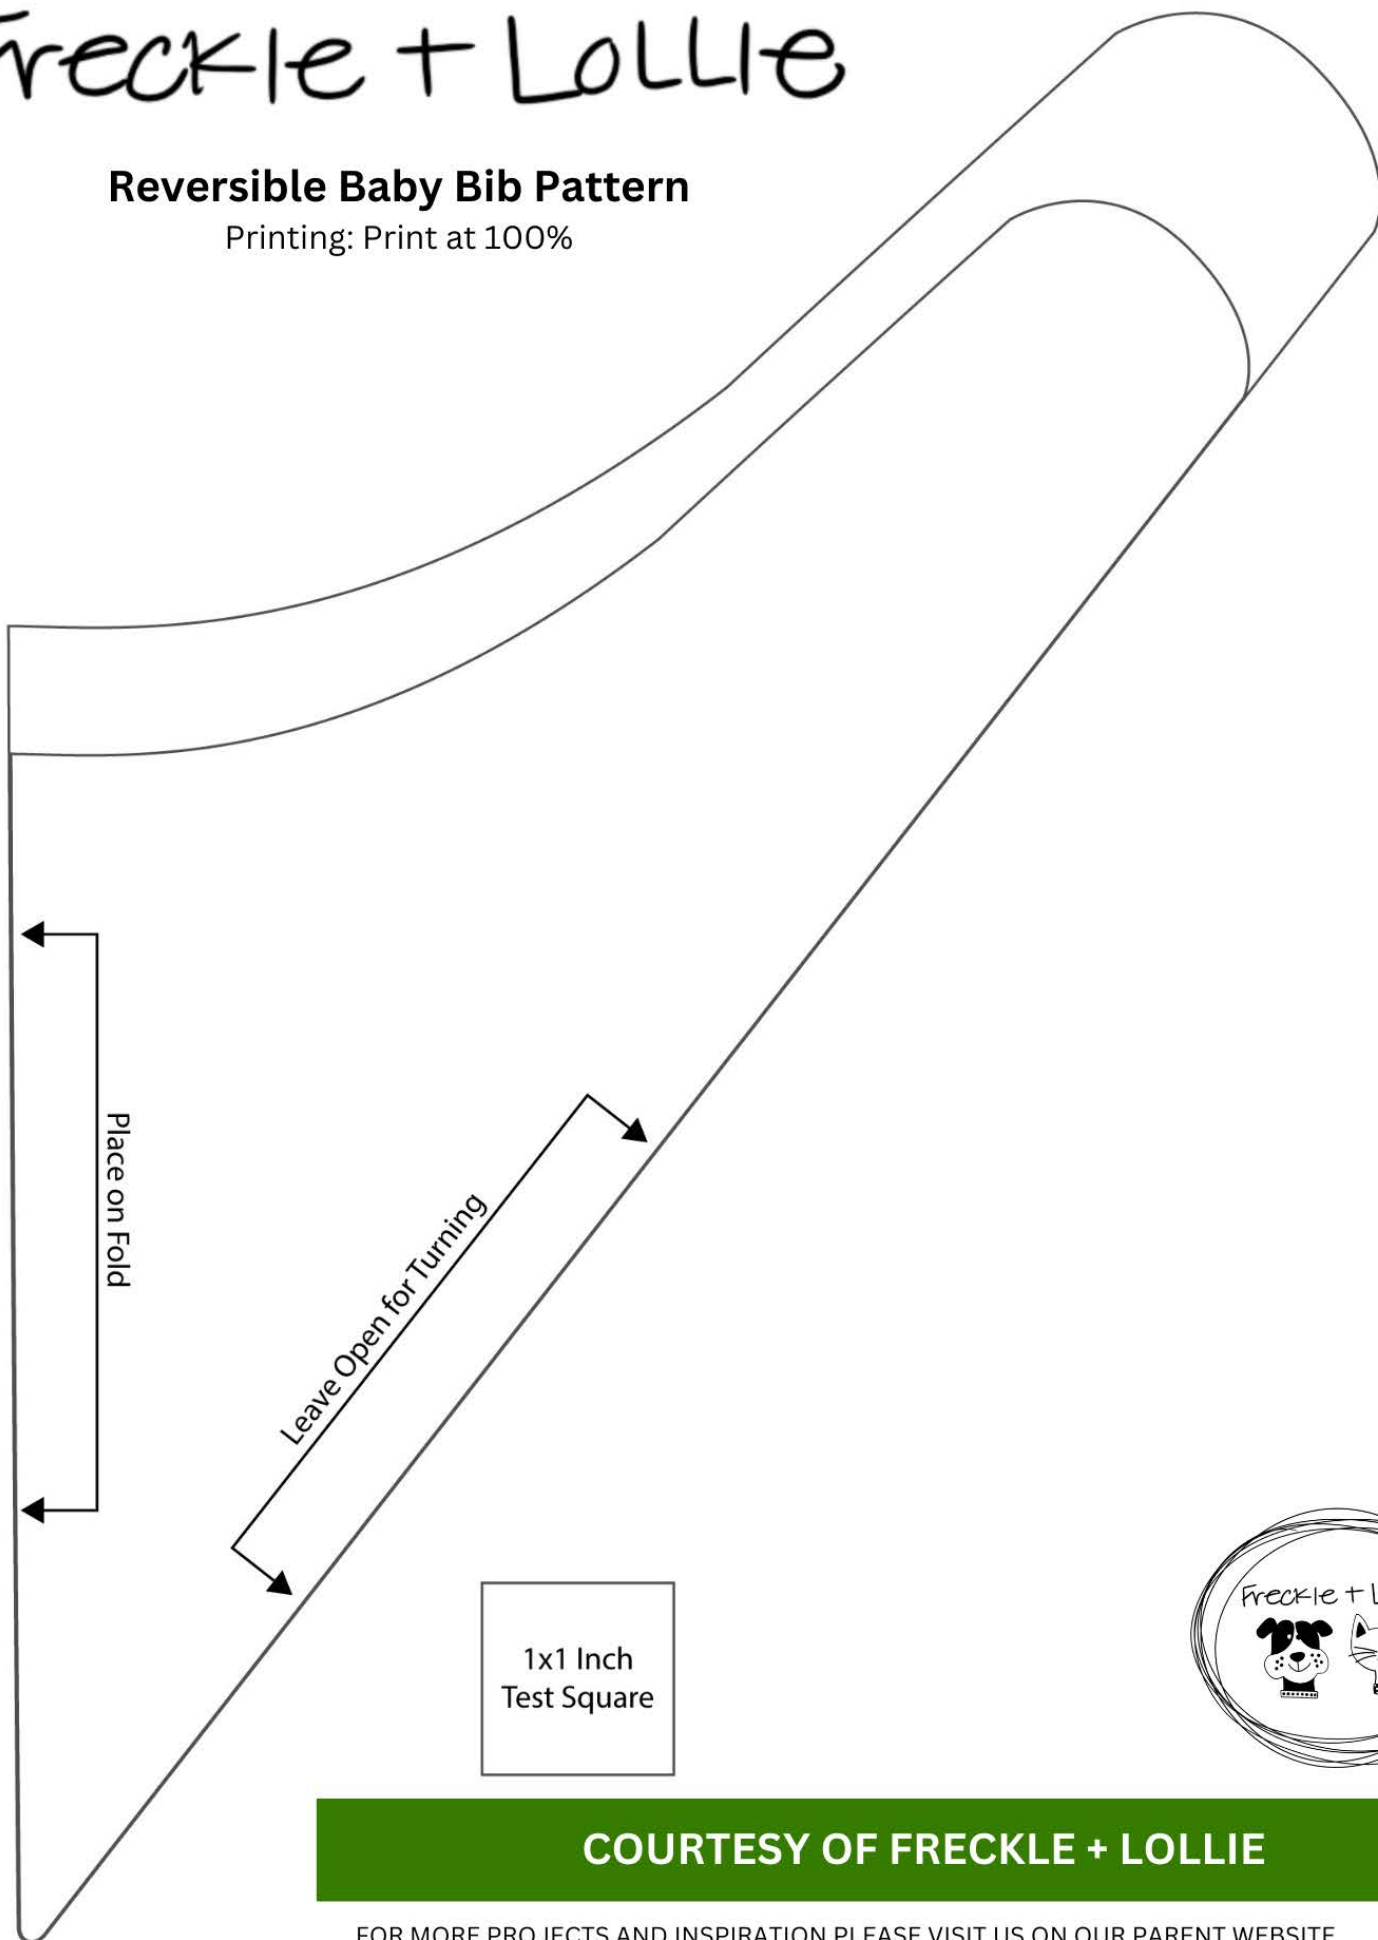

*Optional to use snaps in place of Velcro.
