## Supplies & Tools

- Oven Mitt pattern
- 1/2 yard NFL 100% Cotton Duck
- 1/2 yard 100% cotton fabric for lining
- 1/2 100% Organic Cotton Batting from Fairfield World
- Basic sewing kit: scissors, pins, needle and thread to match, marking tools, and ruler
- Sewing machine
- iron

## Directions

1. Cut your fabric and batting as follows: Cut one 18" x 21" piece from NFL cotton duck fabric. Cut two 12"x21" pieces from lining fabric. Cut two 18"x21" pieces cotton batting.
2. Using marking tools (we chose Heat Erasable Pens), draw quilting lines on the right side of your NFL cotton duck fabric. We chose to draw diagonal lines.
3. Quilt your fabric: layer your marked NFL cotton duck fabric on top of both pieces of Organic Cotton Batting from Fairfield World and pin together. Your NFL fabric should be right side up.
4. Sew together all layers following the lines you created with your marking tools. This creates a quilted fabric.
5. Fold your quilted fabric in half width wise wrong sides together, place your oven mitt pattern on top, pin down, and cut. This should yield two pieces of your oven mitt.
6. With right sides together pin the two oven mitt pieces together and pin leaving an opening in the bottom for your hand to fit into. Stitch together using a 5/8" seam allowance.

## Directions

- 7.** Trim down the seam allowance to relieve bulk and trim away excess fabric between the thumb and finder areas.
- 8.** Turn quilted mitt right sides out.  
  
For the lining fabric, take both pieces of fabric right sides together. Place oven mitt pattern on top, pin down and cut. Make sure to transfer labeled stitching line and pivot point from pattern onto wrong side of lining fabric.
- 9.**
- 10.** Remove pattern and re-pin oven mitt together with right sides together. Leave the bottom of the oven mitt open for hand as well as a 3" gap in the side of the lining for turning.
- 11.** Stitch around the oven mitt using a 5/8" seam allowance leaving the bottom and 3" gap on the side of the lining. Trim down the excess seam allowance making sure to trim away the fabric between the thumb and finger areas.
- 12.** Place the right side out quilted oven mitt into the wrong side out lining lining up the seams. Pin together and stitch around.
- 13.** Pull the quilted oven mitt through the hole left open in the lining, and stitch the hole closed using a sewing machine or invisible stitch.
- 14.** Push the lining all the way inside the oven mitt making sure to match the finger and thumb areas at the bottom of the oven mitt. Top stitch around the opening of the oven mitt to secure the lining and enjoy!
