Supplies & Tools

- 1/2 yard NFL Cornhole Fabric 100% Cotton Duck in two different patterns*
- 1/2 yard Heavy weight fabric (Duck fabric suggested)
- One 10lb box of Poly Pellets Weighted Stuffing Beads from Fairfield World
- Basic sewing kit: scissors, pins, needle and thread to match, marking tools, and ruler
- Sewing machine
- Scale

*Please note that our NFL Cornhole fabric comes in two patterns per teams.

Directions

1. Cut four 7" by 7" squares out of each pattern of NFL Corn Hold Fabric. Cut eight 7" by 7" squares from your heavy weight fabric.
2. Taking one cornhole fabric piece and one heavy weight fabric piece, place them right sides together and pin.

Sew around the square using a 1/2" seam allowance making sure to leave about a 3" hole for turning. Repeat this step a second time using a 1/4" seam allowance, again making sure to leave about a 3" hole for turning. This will provide extra strength in the stitching making the bags more durable.
3. Clip the corners at an angle to reduce bulk, making sure not to cut the stitch line.
4. Turn the bag right side out through the hole left open. *Use your fingers or chopsticks to help poke the corners of the bag.
5. Fill the bag with as close to 16oz of Poly Pellets Weighted Stuffing Beads as possible.
*A funnel works best to help this step.

Directions

6. Close the hole in the bag by either using a top stitch on your sewing machine (fastest method, but bulkiness can make for difficulty sewing) or using an invisible stitch (easier method but more time consuming. You will also need to stitch the hole a few times to make sure it is durable enough to not let any pellets lose)
7. Repeat steps 2 through 6 for the rest of the bags.
8. You should now have 4 bags of one pattern and 4 bags of the other pattern.
9. Test out each bag by playing a game of cornhole. Once the bags pass the test, your ready for tailgating.
