Supplies & Tools

- ½ yard of three different Fabric Traditions Christmas fabrics
- poly-fil from Fairfield World
- Christmas tree pattern
- Removable marking pen
- Sewing machine and matching thread.
- Basic sewing supplies (ruler, scissors, pins, iron, ruler)

Directions

1. Print and cut out the pattern found at the end of these directions.
2. Using the directions on the pattern, cut out 6 pieces from the pattern. Make sure there are two pieces of each print.
3. There are two options for this step depending on how you would like your tree to look.
   Option 1: match each pattern together and pin around leaving a gap on the bottom for turning.
   Option 2: match each pattern with a different pattern and pin around leaving a gap on the bottom for turning.
4. With a ¼ inch seam allowance, stitch around each of the three trees making sure to leave a gap open at the bottom.
5. Notch seams where needed and flip right side out making sure to turn out the points properly and press flat.
6. Now that you have three trees, stack them on top of each other and pin all together.
7. Using a removable marking pen, draw a line down the center of the trees and stitch together.
8. You now have 6 open gaps at the bottom of the tree. Fill with poly-fil. Our suggestion is to go around each section of the tree starting with stuffing the top, then the middle, and then the bade to make sure it is evenly stuffed.
9. Using an invisible stitch, stitch up the bottom of the tree. Place on your table for the holidays and enjoy!
